

Family and Children's Services
of the District of Rainy River

Vik Nowak
Executive Director

"Where Families Matter"

April 24, 2009

Press Release:

Children's Mental Health Week is being recognized across the entire province of Ontario, during the week of May 4th to May 8th. Our Children's Mental Health team would like to invite the public to attend a free BBQ at our Fort Frances office at 240 First Street East on May 5th from 4pm to 6pm.

We want to celebrate the many great ways that our Children's Mental Health program has supported the children of the Rainy River District. We would love to show the public some of the resources and educational tools that we have in place to best serve our children and their families. We also would like to raise awareness of the rising mental health needs of our children.

Throughout Ontario, children's mental health programs have seen the development of large waitlists as children now have to wait many months for mental health support. We want to make our community aware of the increasing demand for Children's Mental Health services.

Please come out and help us celebrate and recognize Children's Mental Health Week. If you would like more information please contact Troy Clink at 274-7787.

Thank you,

The Children's Mental Health Team.
